

Information for Authors

Aim and Scope

The International Journal of Fuzzy Systems (IJFS) is an official journal of Taiwan Fuzzy Systems Association (TFSA) and is published quarterly. IJFS is now indexed in SCI-Expanded database. IJFS will consider high quality papers that deal with the theory, design, and application of fuzzy systems, soft computing systems, grey systems, and extension theory systems ranging from hardware to software. Survey and expository submissions are also welcome. Submission of a manuscript should indicate that it has been neither published, nor copyrighted, submitted, accepted for publication elsewhere (except that the short version may have been presented at the conferences). Submitted manuscripts must be typewritten in English and as concise as possible.

Process for Submission of a Manuscript

IJFS publishes two types of articles: regular papers and technical notes. All contributions are handled in the same procedure, where each submission is reviewed by an associate editor who makes an initial decision to send the manuscript out for peer review or to reject without external review. Articles can be rejected at this stage for a variety of reasons, such as lack of novelty, topics outside the scope of the Journal, flaws in the scientific validity, or unprofessional presentation. We are therefore not normally able to provide authors with feedback on rejected manuscripts. If the associate editor believes the article may be of interest to our readers, it is then sent out for external peer review by at least two external reviewers. According to the recommendation of the associate editor, the Editor-in-Chief makes the final decision. All manuscripts should be submitted electronically in Portable Document Format (PDF) through the manuscript submission system at <http://www.ijfs.org.tw> or <http://isdlab.ie.ntnu.edu.tw/IJFS/>. The corresponding author will be responsible for making page proof and signing off for printing on behalf of other co-authors. Upon acceptance of a paper, authors will be requested to supply their biographies (100 to 200 words) and two copies of the final version of their manuscript. One is in DOC format and the other in PDF format.

Style for Manuscript

Papers should be arranged in the following order of presentation:

- 1) **First page** must contain: a) Title of Paper (without Symbols), b) Author(s) and affiliation(s), c) Abstract (not exceeding 150 words for Papers or 75 words for Technical Note, and without equations, references, or footnotes), d) 4-6 suggested keywords, e) Complete mailing address, email address, and if available, facsimile (fax) number of each author, f) Preferred address for correspondence and return of proofs, and g) Footnotes (if desired).
- 2) **The text:** Submitted manuscripts must be typewritten double-spaced. All submitted manuscripts should be as concise as possible. Regular papers are normally limited to 26 double-spaced, typed pages, and technical notes are 12 double-spaced, typed pages. Please see the **Page charge** for those who want to submit long papers.
- 3) **Acknowledgements** of financial or other support (if any).
- 4) **References:** References should be numbered and appear in a separate bibliography at the end of the paper. Use numerals in square brackets to cite references, e.g., [15]. References should be complete and in the style as follows.
[1] C. C. Lee, "Fuzzy logic in control systems: Fuzzy logic controller - Part I," *IEEE Trans. Syst. Man Cybern.*, vol.20, no.2, pp.404-418, 1990.
[2] C. Golaszewski and P. Ramadge, "Control of discrete event processes with forced events," *Proc. 26th IEEE Conf. Decision and Control*, Los Angeles, CA, pp. 247-251, Dec. 1987.
[3] P. E. Wellstead and M. B. Zarrop, *Self-Tuning Systems*, New York: Wiley, 1991.
- 5) Tables
- 6) Captions of figures (on separate sheet of paper)

Style for Illustrations

- 1) It is in the author's interest to submit professional quality illustrations. Drafting or art service cannot be provided by the Publisher.
- 2) Original drawings should be in black ink on white background. Maximum size is restricted to 17.4 by 24.7 cm. Glossy prints of illustrations are also acceptable.
- 3) All lettering should be large enough to permit legible reduction of the figure to column width, sometimes as small as one quarter of the original size. Typed lettering is usually not acceptable on figures.
- 4) Provide a separate sheet listing all figure captions, in proper style for the typesetter, e.g., "Fig. 5. The error for the fuzzy controller."
- 5) Illustrations should not be sent until requested, but authors should be ready to submit these immediately upon acceptance for publication.

Page Charges

After a manuscript has been accepted for publication, the author's company or institution will be approached with a request to pay a page charge to cover part of the cost of publication. The charges include:

1. NT\$ 5000 for the 10 printed pages of a full paper or for the 6 printed pages of a short paper, and the excess page charge of NT\$ 1500 per extra printed page for both full and short papers.
2. For color figures or tables, an additional cost will be charged. The cost, depending on the number of color figures/tables and the final editing result, will be given upon the acceptance of this paper for publication.

Copyright

It is the policy of the TFSA to own the copyright of the technical contributions. It publishes on behalf of the interests of the TFSA, its authors, and their employers, and to facilitate the appropriate reuse of this material by others. Authors are required to sign a TFSA Copyright Form before publication.
